GSP Tribute

Governor Martha Layne Collins was the first woman Governor of the Commonwealth of Kentucky, an advocate for education, and a critical part of the GSP history. With the support of Governor John Y. Brown, Jr., his successor, Governor Martha

2025 Churchill Downs Winners Circle Governor's Scholars

For the twenty-fifth consecutive year, Churchill Downs, Inc. joined the Governor's Scholars Program in recognizing a highly talented group of Governor's Scholars from Jefferson County as Churchill Downs Winners Circle Governor's Scholars. These high-achieving students have overcome personal and/or academic challenges to achieve excellence at every level. All of the selected Scholars have demonstrated determination and courage in fulfilling their goals and realizing their dreams. Thank you to Churchill Downs for their generous support and continued partnership

2025 Academic Report

Layne Collins, and other community leaders, the GSP was created in 1983 as a summer program for high-achieving rising high school seniors in Kentucky. We are thankful to Governor Collins and will remember her lasting legacy. To read more about Governor Martha Layne Collins, click [here](#).

Save the date for GSP Day at the Races on Thursday, April 16! where we can visit, reminisce, place our bets, and enjoy a part of Kentucky tradition!

Mark your calendars as tickets will be limited! More information and a link to purchase tickets will be emailed out in the coming months.

Did you know? Kentucky County Trivia

Bell County: Middlesboro is one of only a few cities on the North American continent located in the basin of a meteorite impact structure ([learn more](#)).

Harrison County: Every Post-It Note used in the world originates at the 3M factory in Cynthiana ([learn more](#)).

Kenton County: The Vent Haven Museum in Fort Mitchell is the only museum in the world dedicated to ventriloquism ([learn more](#)).

McCracken County: Paducah is one of only nine UNESCO Creative Cities in the United States, recognized for its crafts,

We're Hiring Faculty!
Work for the Governor's Scholars Program!

Apply Today
[gsp.ky.gov](#)

The emphasis of the Governor's Scholars Program is on the students' development of critical thinking, adaptability, creativity, widened horizons, future-orientation, and constructive responses to the obligations of life. The curriculum of the Governor's Scholars Program has been built with the recognition that talented students have a wide variety of interests and concerns. The three-tiered curriculum provides opportunities to develop both general and specific intellectual skills and talents.

Role	Description	Responsibilities
FOCUS AREA	A "major" subject of study, assigned according to scholar preference.	Meet to provide broad, interdisciplinary intellectual exposure and enrichment.
GENERAL STUDIES	Innovative areas of study selected by faculty in consultation with GSP Administration.	Emphasize on the development and application of problem-solving skills, creative thinking and hands-on learning strategies.
LEADERSHIP SEMINAR	Co-facilitated by a Resident Advisor with a Faculty partner.	A discussion-based small group session. Emphasis is placed on respectful discussion. Scholars are encouraged to ask probing questions.

Donor Spotlight

The GSP was designed to be funded and supported through a unique partnership between the Governor and state legislature and the private community – corporations, foundations, organizations, and friends of the Program.

Neil Ramsey
GSP Board Member & Parent of GSP
Alumni

Neil Ramsey has been a cornerstone of the Governor's Scholars Program (GSP) for many years, serving as a dedicated Board Member and passionate advocate for Kentucky's future leaders. His vision and commitment have helped strengthen the GSP's mission to provide transformative educational experiences for high-achieving students across the Commonwealth.

Neil's leadership has been instrumental in expanding opportunities for scholars, supporting initiatives that enhance academic rigor, personal growth, and civic engagement. His stewardship as a board member has ensured that GSP remains a program that not only celebrates excellence but also fosters a sense of community and purpose among participants. Neil is also the proud parent of Mary Ramsey, a 2015 scholar. This personal connection provides him with a unique perspective on the program's value and impact.

We are proud to recognize Neil Ramsey for his unwavering support and leadership. His impact on GSP and education in Kentucky continues to inspire scholars and strengthen communities.

Jack and Sydney Easley
Parents & Grandparents of GSP
Alumni

Jack and Sydney Easley embody the spirit and mission of the Governor's Scholars Program. Their connection to GSP runs deep—not only as proud parents of three GSP scholars (Daniel Easley '93, Gentry Easley '95, Jeremiah Easley '97) and grandparents of two others (Searcy Lotz '24, Jackson Easley '25), but as steadfast supporters who have championed this program for 22 consecutive years.

Jack and Sydney have continued to give generously, ensuring that future generations of scholars have the same transformative opportunities their family experienced. Their unwavering commitment reflects a profound belief in education, leadership, and the power of community. The Easley's remind us that GSP is not just a program—it's a family, strengthened by those who invest in its future year after year.

We are deeply grateful for Jack and Sydney's extraordinary dedication and the legacy they have built with us. Their story is a testament to the lasting impact of generosity and vision.

General Motors

We are proud to recognize General Motors as a long-standing champion of the Governor's Scholars Program. GM's generosity has been instrumental in advancing GSP's STEAM initiatives (Science, Technology, Engineering, Arts, and Mathematics), empowering scholars to explore cutting-edge fields and develop skills that shape the future.

As a long-standing partner of the Governor's Scholars Program, GM's commitment to STEAM education reflects their belief that creativity and technology go hand in hand. By supporting these programs, GM helps scholars develop critical thinking, problem-solving, and design skills that mirror the very principles driving GM's own breakthroughs.

With GM's continued partnership, the GSP will expand its STEAM curriculum, by helping offset the cost of hiring accomplished STEAM faculty who bring their experience and innovative teaching methods to the program; purchase classroom materials, equipment, and technology that enable interactive, inquiry-based learning; and organize STEAM-focused field trips that connect students with professionals and industries. This forward-thinking approach will prepare scholars for careers in fields that don't even exist yet, ensuring Kentucky's brightest minds remain at the forefront of innovation. We are proud to partner with General Motors, a company that shares our passion for shaping the future.

Help us clear out the GSP Store and make room for new mementos (coming soon!) by purchasing a GSP hoodie, blanket, water bottle, etc. - all at 75% off!
